

Ranpak Cushioning Systems...
the Natural Choice

WrapPak™

*protecting your product and
the environment*

- **Fast** - produce cushioning pads 17" per second
- **Adaptable** - 5 modes of operation allow for batch production or in-line, just-in-time use
- **Waste Reduction** - 12 inch wide pad is automatically cut to the exact length
- **Innovative** - converter optimizes pad quality while minimizing crimp
- **Versatile** - convenient paper storage cart allows for easy paper loading and transporting to pack location

Converter Creates Cushioning/ Wrapping Pad from 15" Single-Ply, Fanfold Paper

The WrapPak™ converter forms 2-ply fanfold kraft paper (available in a combination of basis weights and crimp) into a resilient and shock absorbing cushioning pad to protect products during shipment. WrapPak is ideal for lining the bottom of the box, product separation or securely wrapping products.

Minimal training is required to operate the converter. Five standard modes of operation are available and an advanced Pad Delivery System (PDS) mode can be custom ordered.

Ranpak's patented fanfold paper with splicing tape virtually replaces the need to reload the converter optimizing uptime and throughput.

Protection is in our nature

Specifications

Converter (approximate measurements)*	
Width	35"
Height**	70"
Depth	40"
Weight	360 lbs.
Power	100-240 VAC
Feed Rate	17" per second
Controls	Located on converter
Cut Method	Electric motor with clutch
Packing Height	65" (chute height)
Operating Modes	Footswitch EDS Preset Automatic Recipe
*Size specifications refer to the converter only and do not include the converter stand or accessories	
**Measured with the machine in the horizontal position	

Paper Bundle				
Paper Type	Width (inches)	Basis Weight (lb.)	Length (feet)	Weight (lbs.)
Fanfold Box	15	30*	1,660	21
		45	1,200	23
		55	1,000	23
*Also available in 100% recycled and white				

Paper Pallet			
Bundle Type	Bundles per Pallet	Dimensions (inches)	Weight (lbs.)
30 lb.	65	48 x 40 Depth	1,420
45 lb.			1,517
55 lb.			1,550
